MEMORANDUM FOR: Executive Director, NPIC 
SUBJECT : NPIC Instructor at Offutt PI School

On 3 June I talked to  in regard to your question of how the Offutt School would use a full time instructor provided by NPIC. In our conversation  brought out the following factors: 25X1 25X1

1. He would regard any instructor from NPIC as a regular member of his instructional staff.
2. Each instructor has his speciality (block of instruction) for which he is completely responsible.
3. Additionally, each instructor is cross trained in another block of instruction for which he serves as a back-up instructor.
4. All instructors are required to continuously review all new incoming material to update his own block of instruction including the exercise and test materials. This requires a considerable amount of the instructor's time.
5. All instructors assist in the class exercises, tests, and briefings (each student gives three briefings).
6. The evening duty whereby an instructor is available to assist the students in their studying or provide special help is rotated among the instructors.
7. These instructional duties are doubled since they are carried out by each instructor for both the officer course and the enlistedmen's course.
8. All instructors also participate in the one week COMIREX PI Course.

Declass Review by NGA.

Chief, Training Branch, SSD/TSSG 25X1
